EDUCATION

- 2017 - 2019
UNIVERSITY OF COPENHAGEN
 - MSc. Bioinformatics
- 2012 - 2016
UNIVERSITÄT DES SAARLANDES
 - BSc. Bioinformatics

SKILLS

- Python, R, Unix/Bash, SQL, PHP
- Data Analysis
- Machine Learning
- Data Visualization
- Image Analysis/Computer Vision
- Critical Thinking
- Creativity
- Teamwork
- Time Management
- Effective Communication

LANGUAGES

- English - Full professional
- German - Full professional
- French - Professional working
- Luxembourgish - Native proficiency
- Swedish - Elementary proficiency

WORK EXPERIENCE

- Software Developer**
Karolinska Institutet, Stockholm

 - Data harmonization for Epidemiological Research and maintenance of the NEAR database and Website. Building pipelines in R and python, WebDev in PHP and Wordpress

2022 - 2024
2 YEARS

- Research and Development Specialist**
Luxembourg Centre for Systems Biomedicine

 - Data management, data curation and platform building within the european BIOMAP and the luxembourgish CON-VINCE projects.
 - Python coding and bash coding for ETL pipelines on LCSB's servers, including setting up cron jobs for automatization of timed actions.

2020 - 2022
2 YEARS

- Open Source Contributor**
Biolib

 - App creation for the BioLib Webplatform (<https://biolib.com>), compiling C-projects to WASM. Front-End development of the Open-Protein Webpage

2022
2 MONTHS

PUBLICATIONS

- Which demographic and socio-economic factors are associated with vaccination willingness and beliefs towards vaccination? Rapid report with first results 2021
